REGULATION (EC) n. 1907/2006**Concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)**

With reference to the European Regulation in object, Artec Srl hereby declares that produces goods using raw materials and /or semi-finished products which, as of today's date, may contain substances identified as "Substances of Very High Concern" (SVHC) included in the list of substances that requires authorisation.

In particular, in accordance with article 33 paragraphs 1 and 2 of the Regulation in object, Artec Srl declares that the metal parts of its goods may contain lead (Pb) in a concentration higher than 0,1% per item.

Nevertheless, the normal or reasonably foreseeable use of Artec's goods does not require any precaution. Only with regard to the disposal at the end of their life, Artec Srl recommends not to treat the goods with any mechanical processing such as cutting or drilling, which could cause exposure to the aforementioned substance as well as its dispersion into the environment.

Artec Srl, moreover, informs that none of its goods contains substances intended to be intentionally released during normal or reasonably foreseeable use. Therefore, Artec's customers are not required to register any of the substances included in the goods produced by Artec Srl.
